ABOUT US

As a long established, experienced and respected Union Set Shop servicing the entertainment industry, the talented artists, designers, craftsmen and managers at Goodnight & Co have designed, constructed, installed and finished museum exhibits, global installations, public works, new product launches, musical and stage performances in addition to innumerable Hollywood productions.

Our deep roots to Los Angeles, and far-reaching ties to vendors and local manpower will make us a significant asset to large scale public works and government contracts which will benefit our great city and our local communities. We are excited to partner with a prime builder who can mentor us through this process. Having recently expanded and upgraded our facilities, we have the space, equipment and determination to do great things.
